## **DETAILED ACTION**

Please Note: In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your responses. The Fax number is 703-305-3704. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Donald E. Adams, Ph.D., Supervisory Patent Examiner at Donald.Adams@uspto.gov or 703-308-0570. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.

## Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, drawn to EPO receptor agonists, compositions comprising same, nucleic acids encoding same, methods of recombinantly producing same, and methods of administering same, classified in class 435, subclass 69.1, for example.
- II. Claims 15-22, drawn to ex vivo expansion of erythroid progenitors and methods of administration of cells, classified in class 424, subclass 93.7, for example.

The inventions are distinct, each from the other because of the following reasons: Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the EPO

receptor agonists of Group I can be administered to a patient directly, or can be used to purify EPO

receptor.

Because these inventions are distinct for the reasons given above and have acquired a separate

status in the art because of their recognized divergent subject matter, separate search requirements,

and different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Attorney Dennis Bennett in June, 1998, to request an oral

election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election

of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee

required under 37 CFR 1.17(I).

Any inquiry concerning this communication or earlier communications from the examiner

should be directed to Elizabeth C. Kemmerer, Ph.D., whose telephone number is (703) 308-2673.
